Pure for Sure

AB-900

SANITIZER & DISINFECTANT

301-A, Umiya Quatro,

Airport Road, Dabolim - 403 801

E-mail : info@artisanimalhealthcare.com

Web : www.artisanimalhealthcare.com

AB-900

SANITIZER & DISINFECTANT

Benefits:

- Complete & chemically balanced.
- Dependable action even in high organic load areas.
- Contains TBTO, an excellent antifungal agent.
- Contains rust & corrosion inhibitors, penetrants and chelants.
- Non toxic, non irritant & no obnoxious smell, can be used in presence of bird.
- Effective even at 400 ppm hardness.
- Biodegradable, environment friendly, High UV, pH and Temperature stable.

Composition:

- Didecyl Dimethyl Ammonium Chloride.....10.2% w/v
- Alkyl (C 12-61%, C 14-23%, C 16-11%)
Dimethyl benzyl ammonium chloride.....14.2% v/v
- Bis-n-Tributyltin oxide..... 1.0% v/v
- Alpha Oletin Sulphonate.....0.5% w/v
- Excipients and Stabilizers.....Q.S
- Colour : Aqua Blue

Thermal fogging :

2 litre AB-900 in 3 litre of water for 8000 sq.ft. carpet area.

Use Rate :

- 4 ml/ litre of water
- Spraying in cold room.
- Spraying in presence of birds.
- Spraying in incubator and hatchery.
- Terminal disinfections.
- Foot & vehicle dip.
- Sanitation of hatching eggs.

Precautions:

- Keep out of reach of children
- Avoid direct contact with eyes & skin.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- The fog generated by thermal fogger is irritating to eyes, skin & mucous membrane; under no circumstances should a room or building be entered by anyone until the fog has completely settled.
- Wear suitable protective clothing, gloves and eye/face protection.
- In case of exposure or you feel unwell, seek medical advice immediately.

Available:

250 ml

VIRZON PLUS

**A Complete Solution For Viral,
Bacterial and Fungal Infection**

301-A, Umiya Quatro,

Airport Road, Dabolim - 403 801

E-mail : info@artisanimalhealthcare.com

Web : www.artisanimalhealthcare.com

VIRZON PLUS

A Complete Solution For Viral,
Bacterial and Fungal Infection

Benefits:

- It effective against ail type of pathogenic viruses, bacteria, fungus & protozoa.
- It effective in presence of organic matter, had water and at low temperature.
- It is a biodegradabre eco friendry and safe for human and animal life.
- It is an ideal sanitizing agent to use in poultry farms.
- It has the potential to destroy wide range of pathogens of economic importance in poultry farming therefore it can reduce the incidence of disease outbreak.

Composition:

Potassium Monosulfate compound (Triple Salt).....50%
Sulfamic acid.....QS
Buffers, Surfactant, Detergents, Descalants.....QS

Thermal fogging :

2 litre AB-900 in 3 litre of water for 8000 sq.ft. carpet area.

Use :

Hatchery Sanitation : 5 gm / ltr of water
Aerial spray (in presence of birds): 5 gm /ltr of water
Water sanitation : 10 gm / 10 ltr of drinking water

Precautions:

VIRZON PLUS is irritating to skin. Risk of serious damage to eyes. Keep away from children. Do not breath the dust. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water. Seek medical advice

Building and Equipment Disinfection

- Floor and other surfaces 1% solution (10g/1 L) 300 ml per Meter square
- Foot path 1% solution (10g/1 L) use in entry and exit points. Refill after use.
- Vehicle disinfection 0.5% solution (5g/1 L) 300 ml per meter square

Available:

100 gm

ACTIVE-MOS+

**FEED SUPPLEMENT TO IMPROVE
IMMUNITY AND GROWTH**

301-A, Umaiya Quatro, Airport Road, Dabolim - 403 801

E-mail : info@artisanimalhealthcare.com

Web : www.artisanimalhealthcare.com

ACTIVE-MOS⁺

FEED SUPPLEMENT TO IMPROVE
IMMUNITY AND GROWTH

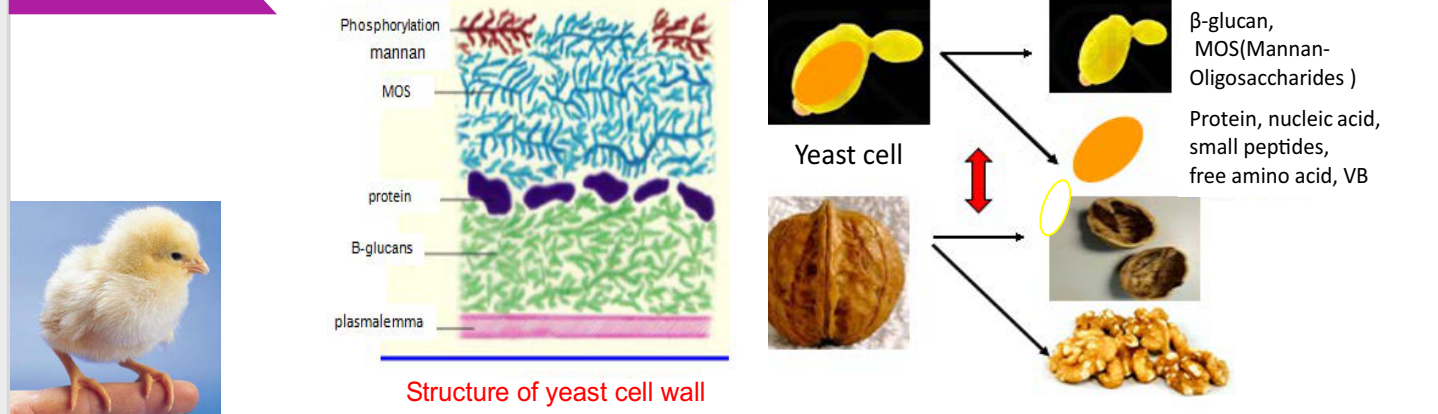

Active-MOS⁺ is a natural prebiotic derived from cell wall of a selected strain of the yeast *Saccharomyces cerevisiae*. These are specifically known as mannan oligosaccharides. They have been scientifically proven to benefit gut health and the immune system.

The action of ACTIVE-MOS⁺ is two fold:

Immobilizing pathogens present in the gut and activating immune system. Some pathogens (like e.g. *E. coli*) are pathogenic, because they bind to the intestinal wall of the host animal. When ActiveMOS⁺ is included in the feed, this binding to the gut wall is inhibited. Besides the described agglutination effect, MOS⁺ is able to stimulate the growth and activity of beneficial bacteria in the intestinal tract.

Structure

Benefits

- Promotes the immune organ development, enhances immune system function, strengthens anti-stress ability, and reduces disease incidence.
- Promotes the beneficial bacteria proliferation, inhibits pathogenic bacteria in intestinal engraftment, and maintains the body metabolic balance.
- Accelerates growth, increases the rate of weight gain, and lowers feed conversion ratio.
- Strengthens the hematopoietic function.

Direction of use

Mix 1 kg of Active MOS⁺ in one tone of feed or as advised by the veterinarian.

Storage

Keep tightly closed and away from sunlight.

GUT-BOOSTER+
GROWTH AND IMMUNE ENHANCER

301-A, Umaiya Quatro, Airport Road, Dabolim - 403 801

E-mail : info@artisanimalhealthcare.com

Web : www.artisanimalhealthcare.com

GUT-BOOSTER⁺

GROWTH AND IMMUNE ENHANCER

The use of beneficial bacteria (probiotics) to displace pathogens by competitive processes is being used in the poultry industry as a better remedy than administering antibiotics and is now gaining acceptance for the control of pathogens in poultry. GUT-BOOSTER⁺ is a mixed culture of live microorganisms that, applied to the feed, affect beneficially the host by improving the properties of the indigenous microflora in the gut.

Composition:

GUT-BOOSTER⁺ is specially designed, synergistic blend of various microorganisms and enzymes as:

Bacillus subtilis 1×10^9 cfu

Bacillus licheniformis 1×10^9 cfu

Bacillus megaterium 1×10^9 cfu

Bacillus amyloliquefaciens 1×10^9 cfu

Enzyme complex Contains

Amylase 5000 IU

Protease 9000 IU

Cellulase 350 IU

Beta-galactosidase 200 IU

Lipase 50-100 IU

Xylanase 150 IU

Benefits:

- Improved growth and health performance
- GUT-BOOSTER⁺ is quite stable and gets easily adjusted to any binding material
- Better survival and improve FCR
- Stronger localized immune response

Dosage & Direction for use:

To be mixed with poultry feed at the rate of 150 to 500 g per ton of feed or as advised by the veterinarian.

Storage:

Keep tightly closed and away from sunlight.
